The patented SpringShot™ Acoustical Toggle is widely popular with the trades because of its ease of installation. Designers have recognized the SpringShot Acoustical toggle's features as a significant advancement to traditional overhead fastening toggle bolts rendering the old fashion toggles obsolete. The SpringShot's self-centering washer is a vast improvement over old style acoustical toggles, making correct installation effortless. The patented spring action provides continuous pressure keeping the toggle fixed and secure, and won't loosen over time even with vibration.

The SpringShot Acoustical Toggles are shipped fully assembled providing a perfect fit every time.
